

Ratepayers are encouraged to reserve equipment to ensure availability. Renters shall sign a rental agreement prior to the receipt of equipment and give a \$30 damage deposit which will be returned to them once the equipment is brought back in satisfactory condition. Equipment shall be picked up and returned between the hours of 8 am and 4 pm Monday through Friday at the designated location and returned to the same.

All equipment shall be inspected prior to and after being rented. Damage shall be noted on the rental agreement at the time of return. Damage shall be assessed whether due to normal wear or negligence. Damage due to negligence shall be charged to the renter.

Any disagreements of billings are to be dealt with by Administration and if the disagreement still exists, it shall be settled by the Agricultural Service Board.

Rental rates for weekend slots shall remain the same as a weekday, however equipment must be returned Monday morning by 8 am. Rental period is from 8 am to 8 am. Reservation of equipment for weekends is encouraged and arrangements may be made with another renter who has it reserved for the weekend to use.

Payment and a deposit for the equipment is still required in all cases.

**IMPORTANT INFORMATION** Any person found to be abusing equipment, exhibiting repeated late returns or returning equipment uncleaned on a regular basis may have their rental rights revoked. The County will rent these equipment to non-ratepayers for use within the municipality. Non-ratepayers will be charged 1.5 times the regular rate.

No rental equipment is to be transported outside the County boundaries without specific written permission of either the Agricultural Fieldman or the Supervisor of Supplies & Services.

The towing speed for all equipment excluding the Brillion Seeder is 80 km/hr. The Brillion transport is not to exceed 70 km/hr at any time. All equipment (except the Brillion Seeder) has a 2" ball hitch. The Brillion has a pin hitch.

The rental of spraying equipment is subject to a \$50 cleaning charge if tanks have any solution left. All lines must be flushed with a bleach solution and the tank must also be subjected to a rinse.

The County will not assume any liability for crop damage to residues in the systems. The renter has the obligation to flush the complete system prior to use.
