CARRIED UNANIMOUSLY

Fencing Road Allowances

A. Saltesz presented information on Brazeau County's and neighbouring counties' policies on the management of undeveloped road allowances.

Discussion paused for public input.

**PUBLIC INPUT
SESSION**

Public Input Session

Reeve B. Guyon opened the Public Input Session at 11:00 a.m.

Don Regenwetter, Dawnco Developments announced his plans to build six new homes of which 1/3 are sold, he also plans to build four single family homes, and is further contemplating the final phases which are in the subdivision approval process. He has a builder wanting to build a show home. He stated that this is a \$16 - \$21 million dollar boost to the local economy, he asked for Council's blessing and help.

Allan Taylor spoke to the most recent addition of the County's annual report wherein the Reeve is quoted saying Council wants to hear from the residents and that is why he is here today. Mr. Taylor received news yesterday that his inspector has finally phoned and feels this process should never have taken this long. It has been since November 2021 and it took to April 19 to pick an inspector. He indicated that Council could have come and talked to him. He encouraged Council to listen to the comments from that ASB meeting of the members of the Board. It was very inappropriate and could have been resolved. He questioned the motion to pick the inspection where the Reeve said through our legal? He feels that the two Councillors that were named in the complaint should not have voted picking the inspector as he did not get to say who the inspector should be. At the November 17, 2022 meeting the Reeve declared conflict and left. Mr. Taylor went to a municipal affairs advisor as was told that under section 172.1 of the MGA when any member of Council declares a conflict they must state why and the reason should be in the minutes. He suggested Council get better at this. It appears to the public that something is going on that they don't know about, they ask questions and want answers, Council works for the people and the people have a right to know what is going on.

Garry Mastre expressed that Council should be more concerned about what people have to say and not what they are wearing. He asked if this was about one little hat and if that is a real harm? He believes the people are concerned with the engineering of roads and are not sure where Council is going with some of this stuff.

Jean Huber questioned the engineering of Twp 474 between RR 52 and 53. She pointed out on page 146 of the agenda it states that a geotechnical investigation is not required, even though the proposed road is near and over waterways and asked why no investigation was required for this road? She further asked: Has the fill needed for the construction been secured and where it will come from? Is additional land needed? Has this been secured ahead of time? There is more than one watercourse going over that area of land and only one culvert shown, what is the plan for the other watercourse? She commented that the grading is quite extreme, and asked: Is there an engineer guarantee that this won't slide down the hill? She noted that there are no guard rails and asked what would be the reason for this? She is concerned that with it being a narrow road without guard rails people will end up at the bottom. She is concerned the County is spending money before the groundwork is being done on this project.

Duane Movald commented on the Twp Road 474 design option report, and asked about the traffic count as the report didn't say where it was taken. He has a quarter of land on the south side of the road and spends many hours a day doing field work and has noticed that there are no vehicles.

Kelly Bateman, resident on Twp Road 494, asked on behalf of her neighbours what is happening with the road, and are we going to get pavement eventually?

Reeve B. Guyon closed the Public Input Session at 11:20 a.m.

422/22-06-07 Moved by K. Westerlund to bring items 8. c) and e) forward on agenda to now.

CARRIED UNANIMOUSLY

PUBLIC WORKS

Public Works

ROAD-0284 TWP 474 (RR 52 to RR 53) Design Options
