

Brazeau County is committed to helping our citizens reduce energy costs and greenhouse gas emissions.

The Municipal Energy Efficiency Rebate Program will help residents receive great savings for qualifying home improvements. The savings are made

even greater when combined with rebates from Energy Efficiency Alberta and any in-store retail rebates.

All Brazeau County residents are encouraged to take steps to increase energy efficiency and reduce water consumption. This greatly benefits both your wallet and the environment. When you use less electricity (whether in heating or lighting), you save on your monthly bills, and you require less electricity to be produced, resulting in reduced greenhouse gas emissions. When you use less water, you are accomplishing the same thing: reducing the amount of energy required to process and deliver it.

This brochure provides a guide for Brazeau County residents for the savings available through the Municipal Energy Efficiency Rebate Program. More information on Provincial savings can be found at www.energycanada.ca.

The Municipal Energy Efficiency Rebate Program is a pilot project by Brazeau County in effect from April 1, 2018 to April 30, 2019.

Programs details may change, and will be reflected on the Brazeau County website at www.brazeau.ab.ca.

Brazeau County Municipal Energy Efficiency Rebate Program

It's the Little Things that Count

Great Savings on:

LED Light Bulbs

The most energy efficient bulbs on the market today.

Smart Power Bars

Easy way to minimize the amount of electricity running through your home.

Clotheslines

If you dry 5 loads of laundry a week, a clothesline can save you up to \$60 a year, but the best advantage is your laundry smells great and last longer.

Indoor/Outdoor Timers

Timers make sure you are not wasting energy or lighting empty or unused rooms.

Motion Sensor Lights

LED motion sensor lights turn on when you need them and keep your home safer.

Low flow showerheads/taps

Low flow saves 40% more water while enhancing pressure and performance.

REBATE = 25% OFF PURCHASE

Visit www.encyalberta.ca for more rebates

2

Big Appliances, Big Savings

Great Savings on:

Refrigerators

Use more electricity than any other appliance. Upgrading from an old fridge could save up to \$73 a year in energy costs.

Clothes Washers

Energy efficient clothes washers save thousands of litres of water every year. This means you save an annual average of \$40 on energy costs.

Smart Thermostats

A smart thermostat keeps your house at an ideal temperature at all times, saving you energy and saving you money.

REBATE = UP TO \$100 OFF PURCHASE

Visit www.encyalberta.ca for more rebates

Drain Water Heat Recovery Pipe

Turn waste water going down your drain into savings by installing a Drain Water Heat Recovery (DWHR) pipe.

REBATE = UP TO \$500 OFF PURCHASE

Furnace with High Efficiency Motor (ECM)

Purchasing a furnace with an electronically commutated motor (ECM) can save you 15% on your electricity use.

3

REBATE = UP TO \$75 OFF PURCHASE

Upgrade to Save

Great Savings on:

Windows**

Upgrade to new ENERGY STAR™ triple pane, low E, argon windows to reduce energy loss, reduce noise and get valuable energy savings.

Size (longest length)	Rebate
Small Under 36"	\$25
Medium 36" to 48"	\$50
Large More than 48"	\$75

REBATE = UP TO \$1,500 OFF PURCHASE OR INSTALL
Visit www.encyalberta.ca for more rebates

Water heaters**

An ENERGY-STAR™ approved gas tankless water heater gives you endless hot water and is a great energy-saving opportunity over conventional standing pilot storage tank systems.

REBATE = UP TO \$1,000 OFF PURCHASE OR INSTALL
Visit www.encyalberta.ca for more rebates

**Where professional installations are required all contractors must be Provincially approved.

Upgrade to Save

Great Savings on:

Insulation**

Improve insulation in your attic, above grade walls, basement, and exposed floors for a more comfortable and energy efficient home.

Qualifying insulation (**upgrades only; new home insulation does not qualify**):

- Rolls or Batts
- Blown in
- Loose fill
- Rigid board
- Spray foam

	Existing R Factor	Finished R Factor	Estimated Rebate for 100 Sq. ft
Attic	R-12	R-50	\$54.50
Main Walls	R-12	R-20	\$42.62
Basement	R-0	R-12	\$95.12
Rim Joist	R-0	R-12	\$76.90
Exposed Floor	R-12	R-32	\$22.85

REBATE = UP TO \$3,500 OFF PURCHASE
Visit www.encyalberta.ca for more rebates

**Where professional installations are required all contractors must be Provincially approved.

Rebate Program Rules (There are always rules)

-  To claim your rebates, complete the rebate application form, available on the County website or at the County Administration Building.
-  Rebates must total at least \$50 for cheques to be issued. Cheques will be issued in February, May, August, and November.
-  One rebate per tax roll number for each item on pages 3, 4, and 5 (large appliances, thermostats, insulation, and windows).
-  Rebates on insulation, windows, furnaces, water heaters, and drain water heat recovery pipes are available for both the products and installation. However installations must be completed by provincially permitted installers in order to qualify.
-  Renters may qualify for rebates by obtaining their tax roll number from their landlords, or by providing identification and proof of residency when applying.
