Freezers
Dishwashers
Light Tin

Unacceptable Items:

Microwaves
Televisions
Electronics

Other items deemed unacceptable that are not on this list are at the
discretions of the Transfer Station Attendant

Transfer Station Identification Card

Brazeau County is working to insure that only
County Residents use County Transfer
Stations.

Please be advised that all County landowners have been issued a
Transfer Station Identification Card. Anyone living in the household of
the card holders can present the card at the Transfer Station to deposit
acceptable waste.

If renters or additional, separate residents need an Identification Card,
the registered landowner must apply for an addition card and is
ultimately responsible for that card under the terms and conditions
outlined by Brazeau County.

Please contact our Administration office at 780-542-7777 for more
information or if you wish to cancel a card or report a lost or stolen
card.

Brazeau County Goes GREEN!

The "Blue Bag" program as it is commonly referred to is now set up at
all eight transfer sites throughout the County.

The Blue Bag program allows residents to recycle their household
recyclables without the bother of sorting it. Clean recyclable products
can all be put into the bags and taken to the nearest transfer station.

Read on in this brochure for more recycling info & watch our website
for upcoming recycling tips.

Now, get started and reuse, reduce, & recycle! It's the right thing to do!

*Please note that we no longer accept grass clippings or leaves at the Rocky Rapids
Transfer Station. All clippings and leaves must be bagged and placed in regular
garbage bins or they can be taken to the Drayton Valley Landfill Recycling Area.
Thank you*

CleanFARMS

Brazeau County works in conjunction with CleanFARMS to provide a recycling program for pesticide and herbicide containers. Through stewardshipfirst™ and CleanFARMS program, more than 70 millions empty plastic pesticide containers have been collected across Canada since the program's inception making Canada a world leader in container management. CleanFARMS highlights the industry and farmers' commitment to container recycling. Farmers across the county are participating in this voluntary-led program, resulting in the return of over 73% of all empty pesticide containers annually. CropLife Canada, its members, farmers and various industry stakeholders work together to ensure that empty containers are appropriately rinsed and disposed of safely. CropLife Canada picks up containers at the return sites, shreds them and transports the material to various recyclers, where it manufactured into drainage tile for use back on the farm. It is so easy, and there is no cost the farmer/resident. Containers should be pressure-rinsed or triple-rinsed and the paper booklet removed, then returned to their local dealer. Just rinse,

remove and return. With a 73% participation rate, more than 70 million containers recycled and the best results in the world, we can safely call this a great success, pat ourselves on the back and leave it at that, right? Wrong. As with any initiative, when you achieve success, the smartest next step is to build on that success to achieve even better results. So we're setting the bar a little higher. With Canadian farmers clearly on board, a recycling rate of 80% of pesticide containers that go into the marketplace by the end of this year. The success of CleanFARMS is thanks to the commitments of farmers, manufactures, dealers and distributors. Stakeholders will be working hard this growing season, staging collection centers and transporting rinsed and returned containers to recycling facilities. Thanks to your commitment, we are all doing our part to continue to protect our farms, our families, our health, and the environment.

GARBAGE

Acceptable Garbage Bag Content:

(This list does not include all possible garbage material).

PAPER

- Disposable diapers
- Dirty or greasy paper or cardboard
- Tissue paper, paper towels
- Frozen juice cans, powdered drink containers

PLASTIC BAGS

(Grocery, retail, bread, dry cleaning). Please place into one plastic blue bag.

GLASS

- (Empty & clean, labels okay)
- Jars, (pickle, jam, mayonnaise)
- Bottles (beverage, ketchup, salad dressing, baby food, etc.)

Brazeau County Pesticide/Herbicide Container Recycling Program

Triple rinse your herbicide and pesticide containers. Remove any labeling and the cap. Return to one of Brazeau County's 5 sites that have a yellow container recycling bin.

Bins are located at the following Transfer Stations:

- Breton
- Violet Grove
- Buck Creek
- Lindale
- Rocky Rapids

For more information, please visit croplife.ca

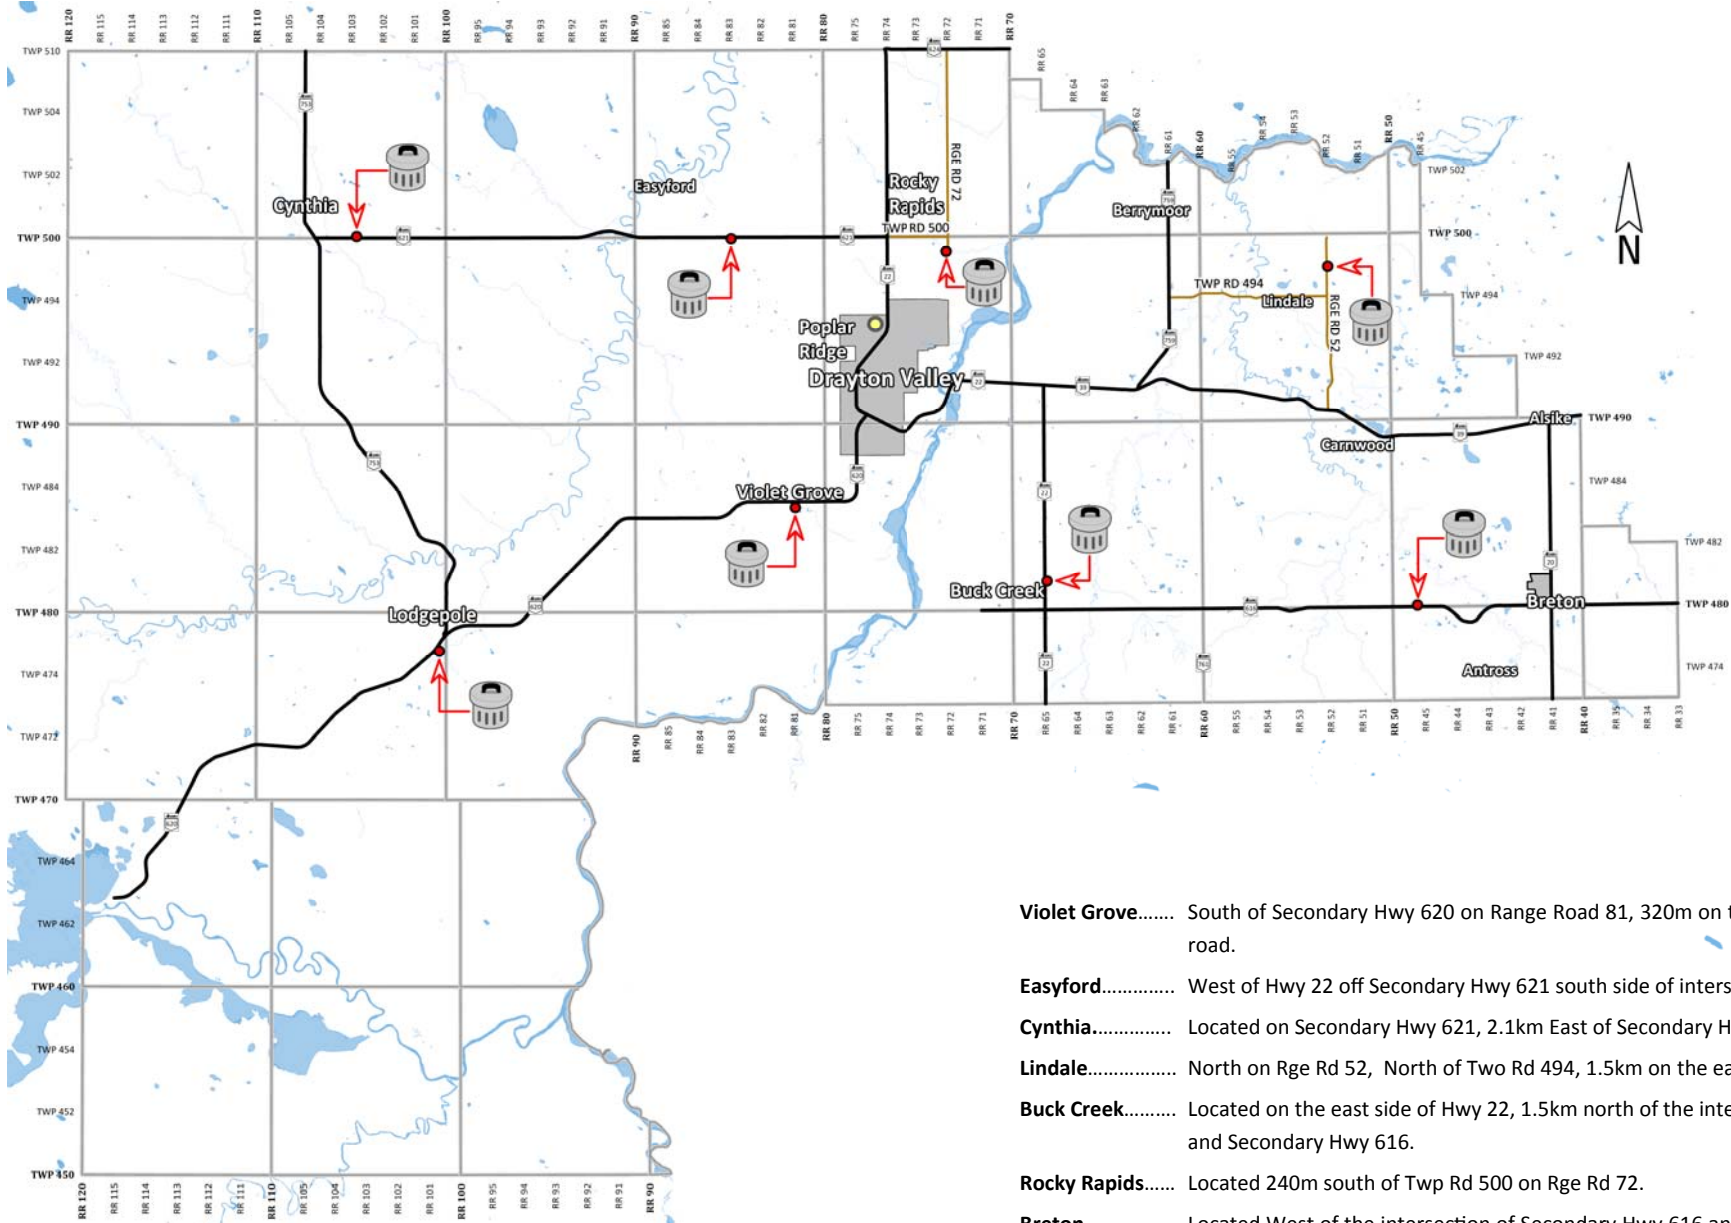

Please note that needles are not permitted in the livestock treatment containers.
